Thanks for the note! I will survive I hope. Just gotta get 3.5 more years unfortunately. I will say this project and my role is really stressing me to the max. I don't want to go to prison over this stupid job and I know I wouldn't get any backing if it came down to someone making me one of the fall guy (s).

Just wanted to say hello and hope things get better. I am worried about you. It is not worth it! You need to be happy again!
